# SITUATION SUMMARY

## Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Level 1	Level 1	Level 1

### Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

### Weather of Concern

- Temperatures are expected to drop to the low to mid 20's for several hours over the rural areas of the San Joaquin Valley until a few hours after sunrise. The larger cities will see temperatures range from 28 to 31 degrees. A cold air mass continues over Southern California, and will bring sub-freezing temperatures to many wind-sheltered locations tonight.

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

#### **Eureka Weather:**

Dry weather will continue through early today before the next storm system brings rain through the latter half of the week. Forecast models hint at a more significant rain event late next weekend and early next week.

#### **Medford Weather:**

Snow is first expected Thursday morning then changing to freezing rain then rain in places like Tule Lake. Another location that may experience freezing rain is Mount Shasta City.

#### **Reno Weather:**

Cold temperatures remain into Wednesday before a warm front moves through with snow possible near the Oregon border and a slight chance of freezing rain. Milder weather is expected late in the week. A weak system will pass through Saturday with some light rain and snow. A stronger system is possible early next week.

#### **San Francisco Weather:**

Dry weather and seasonably cool conditions will persist today. There is a chance of light rain in the North Bay Thursday into Friday. Widespread rainfall is then expected to spread across late Friday into Saturday as a frontal boundary pushes through.

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:**

#### **Sacramento Weather:**

Dry weather with seasonal temperatures can be expected today. Light precipitation across the north Thursday and early Friday. Moderate system moves through all of Northern California Friday night and over the weekend then more systems bring a wet pattern likely to continue through the end of next week. This extended rain/snow pattern will likely impact holiday travel.

#### **Hanford Weather:**

A ridge of high pressure will remain over Central California through Friday. On Saturday, a trough of low pressure will move through bringing a threat of precipitation. Below normal temperatures will remain through today with a slight warming trend through the end of the week.

### **SOUTHERN CALIFORNIA:**

#### **Los Angeles Weather:**

Blustery days and cold nights can be expected through Thursday under high pressure. The temperatures will warm to normal on Friday but weak storm will arrive on Saturday with possible precipitation and a cooling trend into early next week.

#### **Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:**

It is another very cold morning away from the immediate coast. It will be sunny and a bit warmer during the day today as high pressure begins to slowly build into coastal California. Tonight can be expected to be clear and quite cold once again with a light and dry wind flow. Fair and notably warmer conditions will exist for Thursday and Friday. Over the weekend, a weak Pacific trough will bring cooling and a chance for light showers.

#### **Southeast California Weather:**

Northwest flow will result in cold conditions through Thursday. Temperatures will start to moderate back closer to normal on Friday as high pressure aloft builds back into the area. A few systems look to sweep across between Saturday afternoon and Monday bringing more clouds and the possibility of precipitation along with gusty winds at times.

# CAL OES 2014 DROUGHT

## Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC and will be held once per month.

# CAL OES 2014 DROUGHT

## Cal EOC Incident – 2014 Drought
